Environmentally Friendly Rubber Roofing

EuroLite Slate[®]

EuroLite Shake[®]

“Premium Look, Quality and Performance...Without the Premium Price”

Y O U R S H I E L D F R O M T H E E L E M E N T S

“THE RIGHT COMBINATION OF QUALITY, PERFORMANCE AND VALUE”

Welcome to the future of roofing. **EuroLite Slate®** and **EuroLite Shake®** are the latest editions to the **EUROSHIELD®** family of rubber roofing products. In the past, your choices were limited to low cost asphalt/fiberglass shingles or pricier premium roofing options such as slate, wood, metal or tile which could often be 3 to 5 times more expensive.

Today you have a new choice. The **EUROLITE** line bridges that price gap with premium quality rubber shake and slate roofing options. Higher quality plus lower price equals better value. Installation is fast and easy. Our new profiles are made with the same high quality materials and attention to detail found throughout the **EUROSHIELD®** line. Get the most for your roofing dollar. Ask your roofing contractor for a **EuroLite Slate®** or **EuroLite Shake®** quote today.
